

**Voluntary Sexual Health Performance Criteria for Medical Operations**

**Purpose:** This purpose of this document is to provide Navy and USMC commands and organizations which possess medical treatment capabilities with measurable performance criteria in the area of sexual health. These criteria are based on selected national **Healthy People 2010** objectives and on supporting objectives established by SHARP. Some criteria may not apply to every Command.

**Instructions:** A **"Provider Survey"** is attached to assist you with collection of the data for the set of criteria (which are listed here on page 1). We suggest you interview assigned primary care providers (PCP), health promotion specialists (HPS), Preventive Medicine Technicians (PMT), Environmental Health Officers (EHO), and Independent Duty Corpsmen to collect data on the final 4 criteria (listed on page 2).

Sexual Health Objective (and HP2010 Objective Number)	HP2010 Target	U.S. Baseline	SHARP target	DoD/DoN Requirement	Criteria	Provider Survey Results			Criteria met?
						# of credentialed primary care givers assigned	# returned surveys (minimum acceptable = 50%)	% of respondents that indicate criteria is met	
<b>Family Planning</b>									
HP2010 9-5: Increase the proportion of health care providers who provide <b>emergency contraception</b>	developmental	developmental	90%	MANMED (page 1569)	As evidenced by provider survey				Yes / No / non-applicable
<b>STD Prevention</b>									
HP 2010 25-13: Increase proportion of STD programs that routinely offer <b>Hepatitis B vaccine</b> to all STD clients	90%	U.S. = 5%	90%	BUMED Inst 6222.10A	As evidenced by provider survey				Yes / No / non-applicable
HP 2010 25-16: Increase proportion of sexually active <b>females aged 25 and under screened annually for Chlamydia</b>	developmental	developmental	90%	OPNAVINST 6120.3	As evidenced by provider survey				Yes / No / non-applicable
HP 2010 25-18: Increase proportion of primary care <b>providers</b> who treat STDs in accordance with recognized standards	90%	U.S. = 70% in 1998	90%	BUMED Inst 6222.10A	As evidenced by provider survey				Yes / No / non-applicable
(SHARP) Increase proportion of providers who assess sexual risk behavior during routine outpatient encounters	none	range: 28-50% (see SHARP Sexual Risk Assessment student manual)	90%	OPNAVINST 6120.3; Tricare/CHAMPUS Policy manual 6010.47-M	As evidenced by provider survey				Yes / No / non-applicable
HP 2010 25-2: Reduce incidence of <b>Gonorrhea</b>	19 per 100K	U.S. = 128.5/100K in 2001. 610 active duty Sailors (161/100K) and 159 Marines (92/100K) in CY01	19 per 100K	supports BUMED Inst 6222.10A	As evidenced by local Prev Med NDRS data	N/A	N/A	N/A	Yes / No / non-applicable

Voluntary Sexual Health Performance Criteria - **Provider Survey**

Dear Clinician,  
Please help us measure our performance in these sexual health criteria by completing this brief survey.  
Please complete this survey by \_\_\_\_\_ and return it to \_\_\_\_\_  
If you have any questions about the survey please contact \_\_\_\_\_ at \_\_\_\_\_

Provider Survey Questions	Response	HP 2010 Target	Notes
I typically offer my adult patients access to emergency contraception when appropriate	Yes No	HP2010 9-5: Increase the proportion of health care providers who provide <b>emergency contraception</b>	(local comments)
I typically offer access to hepatitis B vaccination (if not already vaccinated) to my patients who present with a sexually transmitted disease	Yes No	HP 2010 25-13: Increase <u>proportion of STD programs that routinely offer Hepatitis B vaccine to all STD patients</u>	(local comments)
I typically offer Chlamydia screening to my sexually active female patients aged 25 and under	Yes No	HP 2010 25-16: Increase proportion of sexually active <b>females aged 25 and under screened annually for Chlamydia</b>	(local comments)
I have easy access to and typically follow the CDC's STD Treatment Guidelines when treating my STD-infected patients	Yes No	HP 2010 25-18: Increase proportion of primary care <b>providers</b> who treat STDs IAW recognized standards	(local comments)
I typically conduct a brief sexual risk assessment of my outpatient patients, even when the chief complaint is not sexual health related	Yes No	(SHARP) Increase proportion of providers who <b>assess sexual risk</b> behavior during routine outpatient encounters	(local comments)
